## How to Build Unconditional Love

### 1 Corinthians 13:8

- Love never fails.
  - Unconditional love must be built.
  - Unconditional love is the foundation for every institution that was created by God.
  - The most pressing need in the world today is unconditional love.
  - Where there is no Logos the Rhema fails.
  - If God was not who He said He is, what He said does not matter.
- Three things to building unconditional love.
    1. We must understand the problem (2 Tim. 3:1-7). The problem is us.
    2. What is the answer? There are three kinds of love the scriptures teaches.
      - A. Agape love – the unconditional God kind of love (Rom. 5:5).
      - B. Phileo love – brotherly love or natural affection.
      - C. Erros love – this is the only love of God that has a condition placed on it.
        - Erros love is restricted to marriage.
    3. How do we get the answer to the problem (John 17:15)? The answer is that we must get right in the body of Christ.
